Hazardous Weather

Another round of severe weather is expected later today. There is some uncertainty with how this event will evolve due in part to low clouds that have developed across portions of the area. If the low clouds clear out as expected, severe weather is likely to occur. If the low clouds hang around longer than expected, severe weather will become increasingly less likely. The main area of concern will stay mostly east of a line from roughly Amarillo to Dalhart to Kenton. Folks should stay weather aware today and stay up to date with the latest forecast as details are refined.

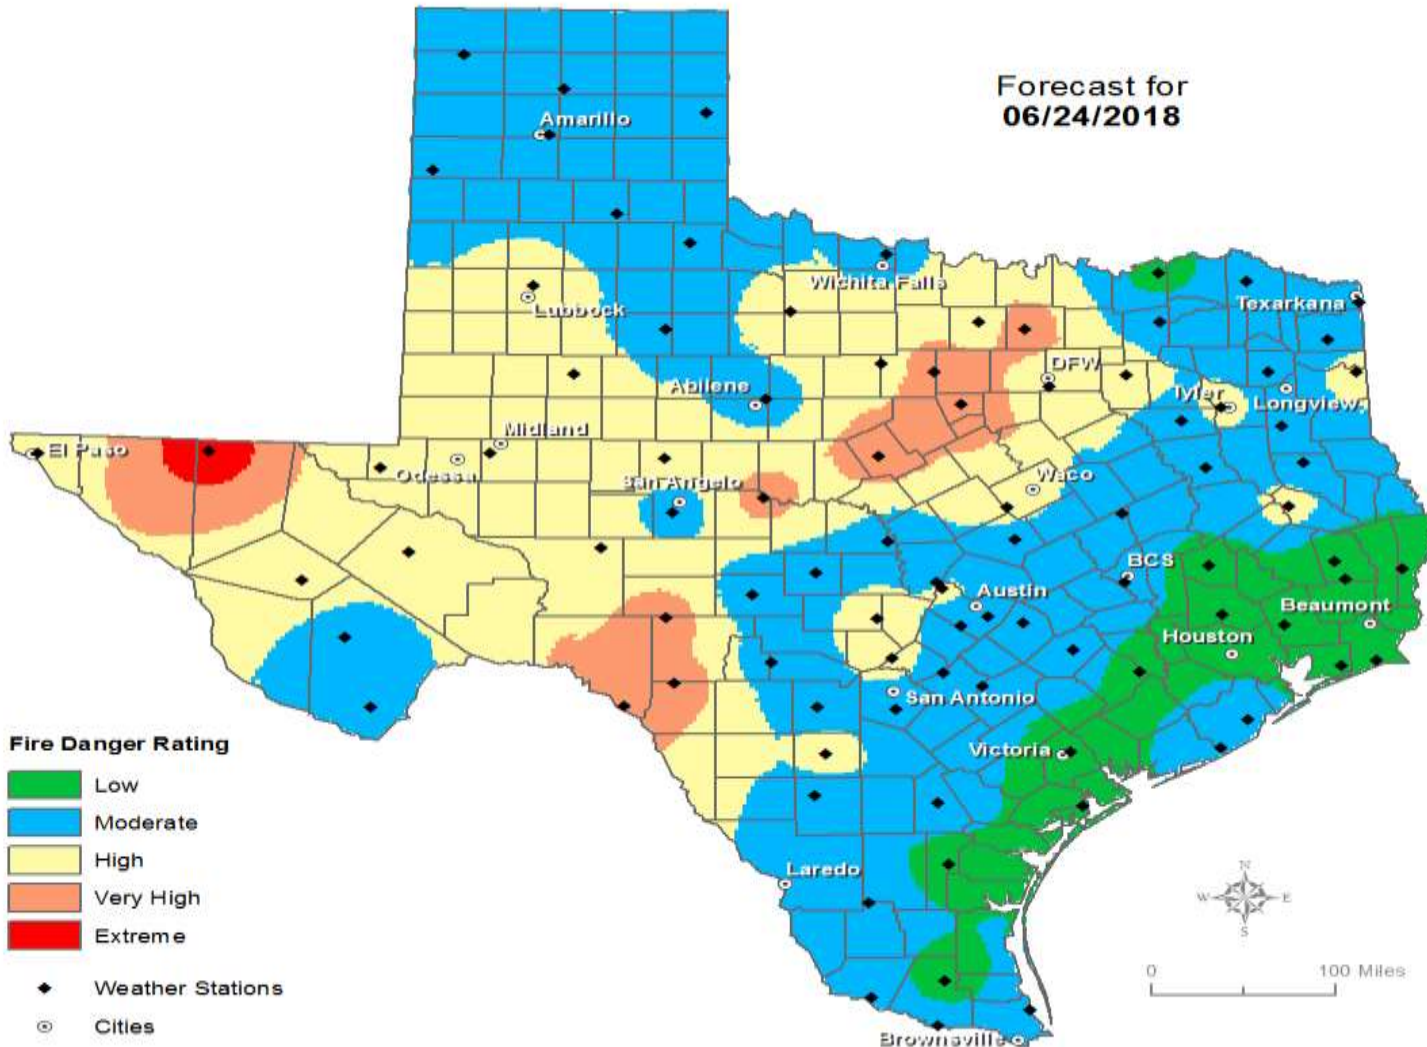

Weather Warning/Advisories Issued

| DATE | WARNING TYPE | LOCATION |
|----------|---|---|
| 06/23/18 | Flash Flood Warning | Mitchell County |
| 06/23/18 | Flood Warning | Cameron and Hidalgo Counties |
